

Night Film & Photography Ratecard

Ratecard

Night Aerial Film & Photography

CloudVisual is certified to fly drones 24 hours a day and we have expert knowledge at low light film and photography, using industry-leading cameras which are excellent at long exposure and low light environments

Site Survey

In accordance with Civil Aviation Authority requirements, we are required to carry out a daylight survey of the intended flying area to carry out risk assessments and check for obstacles that would otherwise not be visible at night

£150

Half Night

Suitable For short productions and single location photoshoots

£700

Full Night

From sunset to sunrise, ideal for TV and Film productions across multiple locations

£1300
